

# FSCHOOL

## Project Phase 2

## ● Requirements :

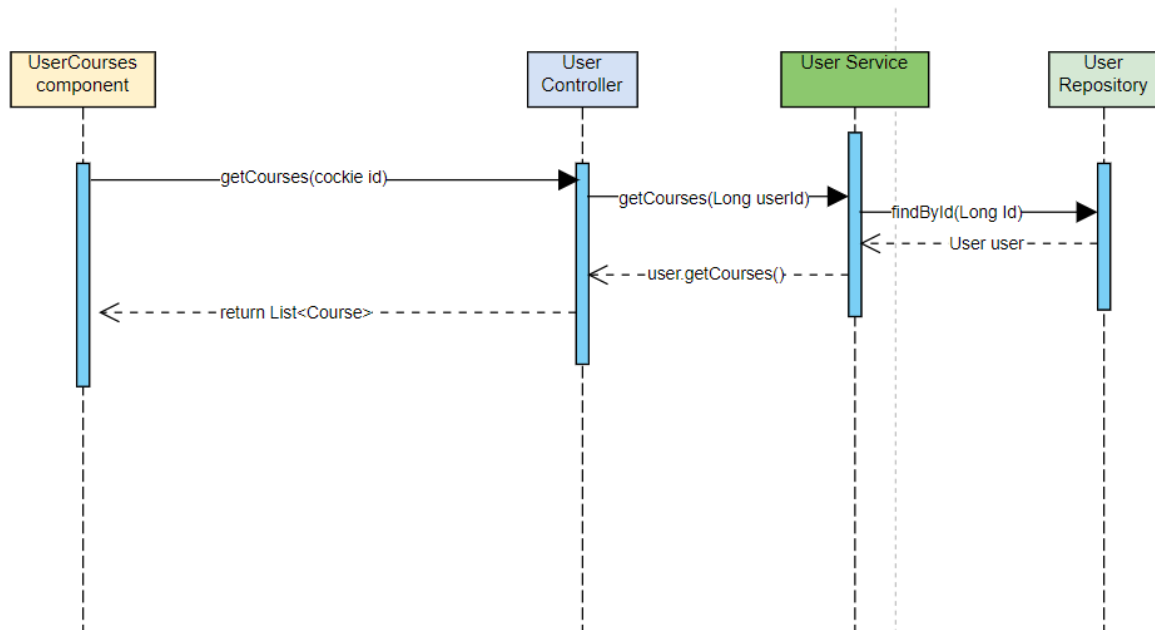

1. Students and teachers shall now be able to login to the system.
2. On login a user shall now have no need to choose his role anymore.
3. Users shall now login with their email addresses instead of their ID.
4. An admin shall now be able to add or remove other admins to the system.
5. A student or a teacher shall see all the courses he/she is enrolled in.
6. A student shall be able to view or add different types of posts for each course.
7. Post types shall be questions, announcements, and posts.
8. A student shall only be able to add questions or posts while a teacher shall only be to add an announcement or a post.
9. Posts in the timeline shall be filtered by their type (questions or announcements, etc).
10. A student or a teacher shall be able to comment on any post in the system.
11. Posts on the timeline shall be ordered by their date i.e. newest posts are on top.
12. Comments under a post shall be ordered by their date but the oldest on top.
13. A user shall now be able to sign out of the system.
14. A cookie containing the current user's ID shall be sent with each request that requires it.

## ● Use case :

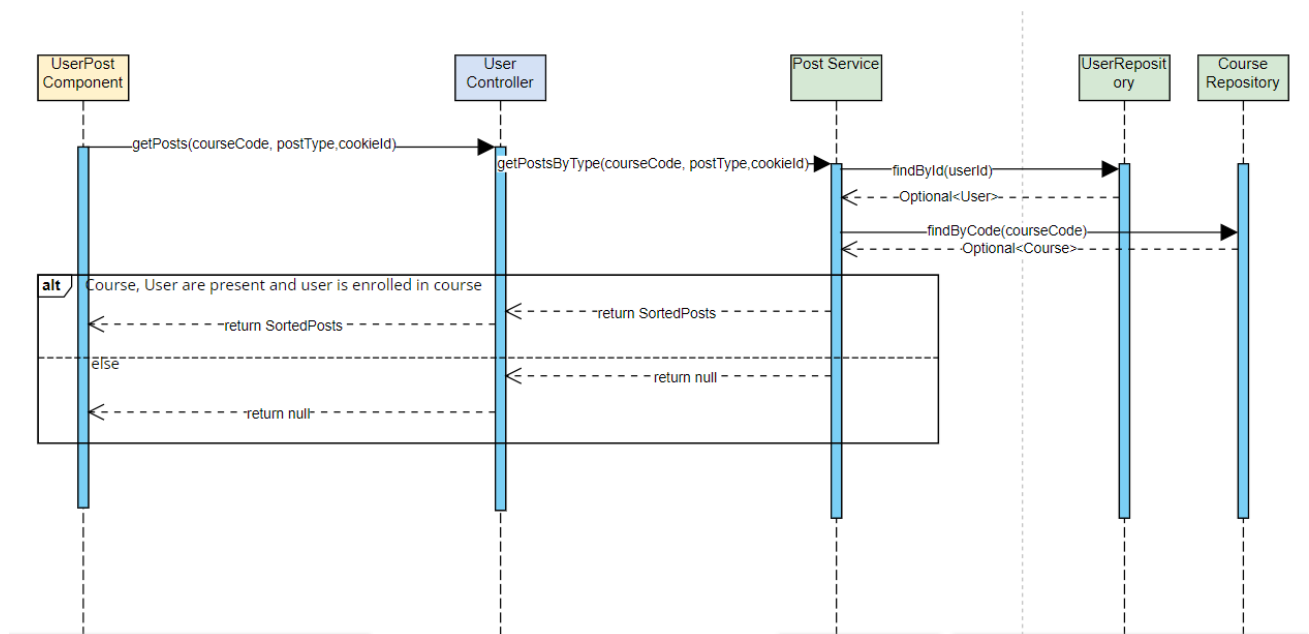

# ● Sequence Diagrams:

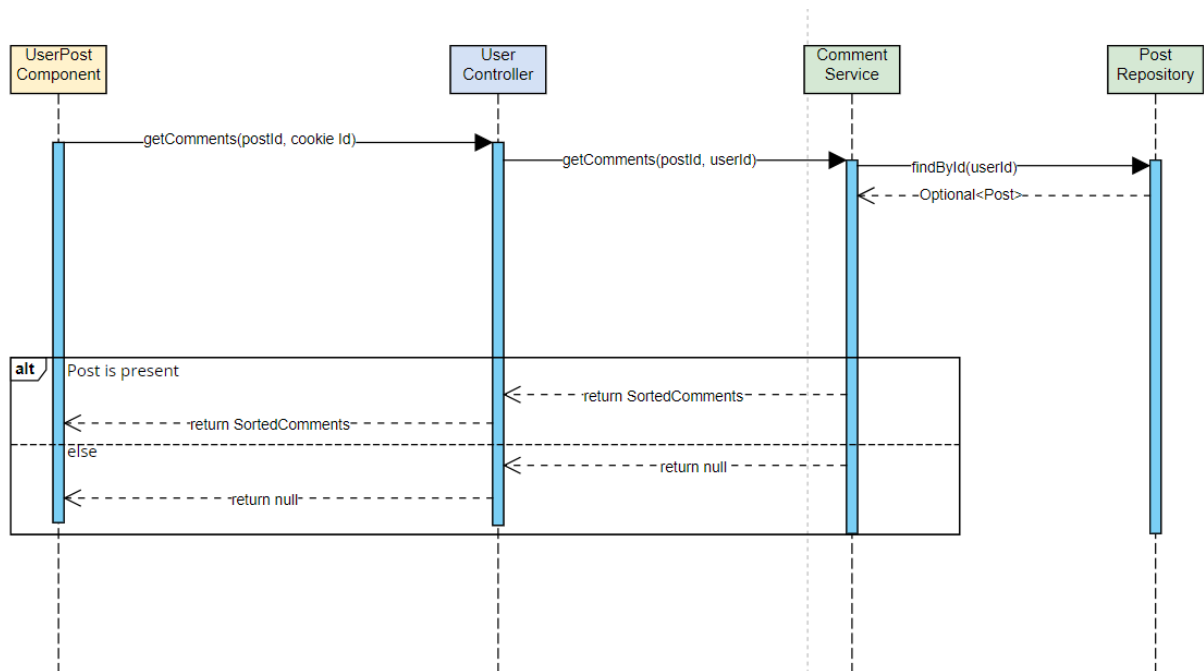

View courses:

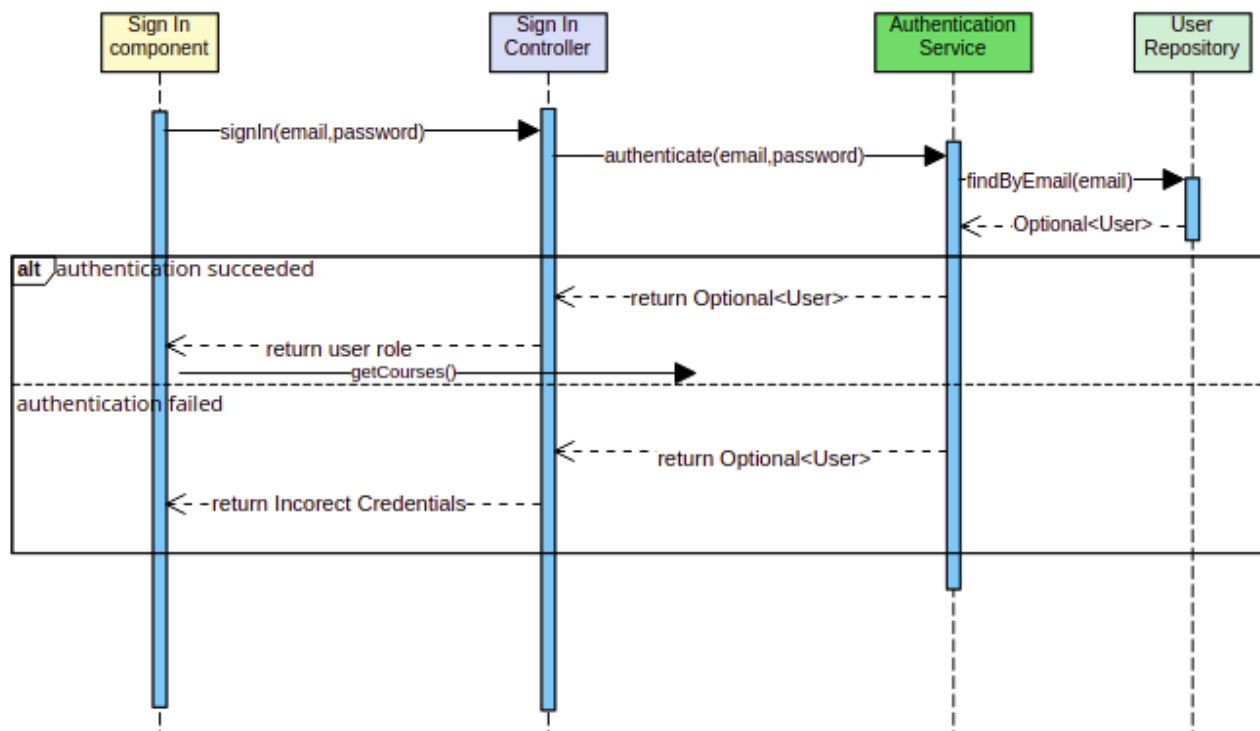

View posts by type:

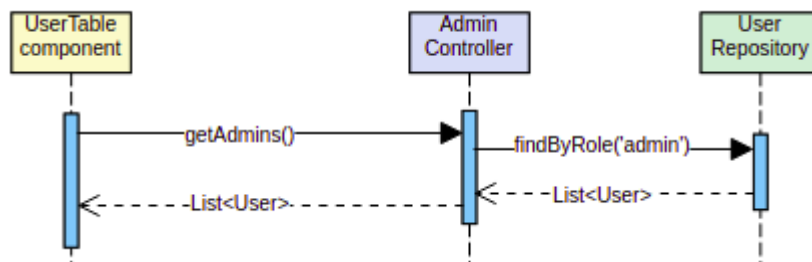

## View the comments of a particular post

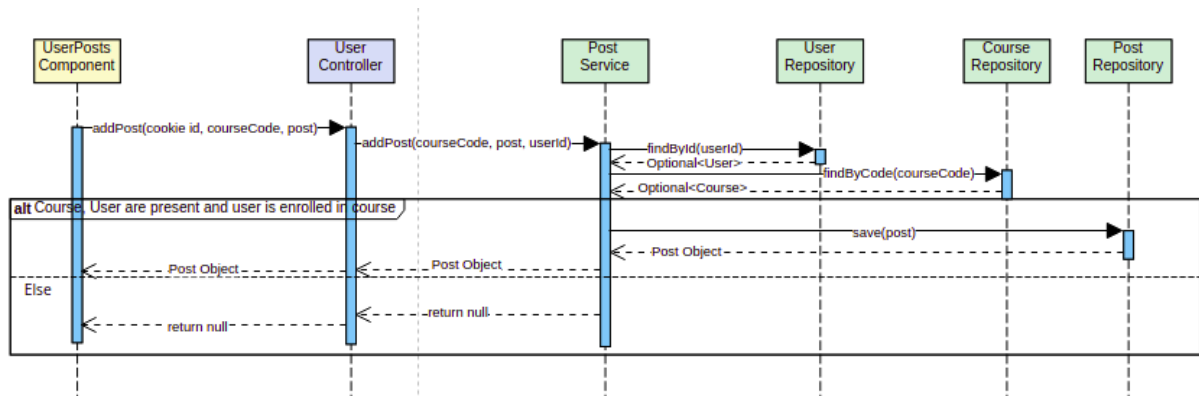

{Change}: sign in by email instead of ID and no role needed.

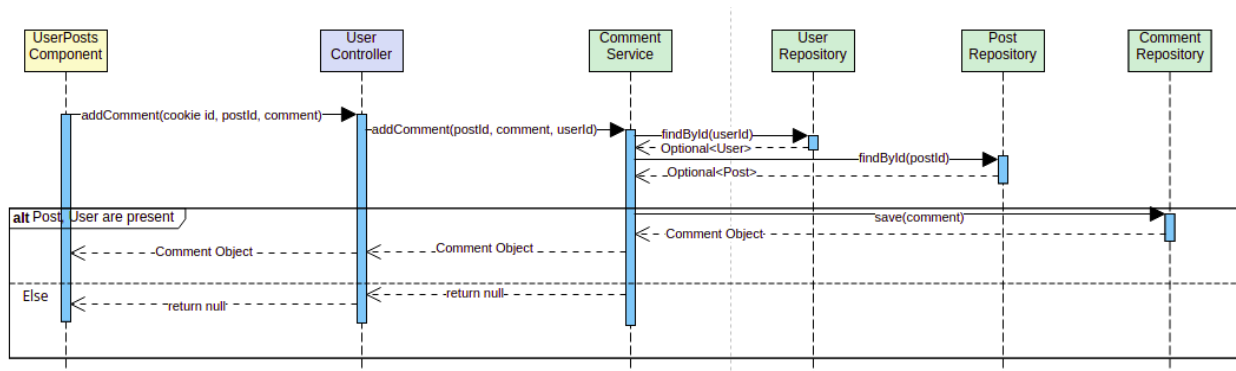

Get admins.
